## CLEAN BOATING TIPS

- Always “pump it out” – use shore-side restrooms whenever possible.
- Spill-proof fueling & oil changes – use an absorbent pad around deck fill and no spill device at the fuel vent.
- Prevent oily discharge from your bilge – use an oil-absorbent bilge sock.
- Choose less toxic and biodegradable cleaning products and minimize cleaning and maintenance on the water.
- If in-water cleaning must be done, use non-abrasive cleaning methods or better yet, ask your marina for a discount on a mid-season haul out for cleaning.
- Keep recycled hazardous waste segregated and dispose of properly – call 1-800-CLEAN-UP for a location near you.
- Stow it, do not throw it! Keep your trash on board and dispose of it shore-side.

**“Funded by a grant from the BoatU.S. Foundation”**

The information was researched and produced by Peconic Baykeeper, in cooperation with the South Bay Cruising Club’s Pump-out Committee.
